CONSENT FOR MULTIMODAL TREATMENT APPROACH

I, _____ willingly request that Mr. C. Nathan Bergeron, Licensed Marriage and Family Therapist (MFC 50298) and Licensed Acupuncturist (AC 8941), uses both of his professional licenses for my care. I understand that both professional licenses are regulated by two different professional corporations, codes of ethics and laws. I am aware that while Mr. Bergeron will be performing certain diagnostic and therapeutic methods under his Acupuncture and Chinese herbal medicine license: such as pulse, abdominal palpation, therapeutic healing touch and/or massage, insertion of acupuncture needles, prescription of Chinese and/or Western supplements, etc.), these very assessments and therapeutic interventions are not a part of his Marriage and Family Therapy license.

I understand that bridging the gap between therapeutic modalities that focus primarily on soul, mind, emotions, personal and interpersonal relationships, AND therapeutic modalities that focus primarily on the body and the different symptoms it may suffer from, Mr. Bergeron requires the freedom and ability to move back and forth between the two licensing agencies he works under; which I hereby grant him through my signed consent.

I understand that at any time during a treatment, or a course of treatments, it is my responsibility to express clearly, and unequivocally, to Mr. Bergeron, that I wish him to stop any, and all forms of an intervention which I am not willing or capable to experience, and/or process. It is my understanding that Mr. Bergeron will always do his best to honor my limitations, and respect my boundaries.
